MCKS Food For Hungry Caring Heart India

Our Story

Grand Master Choa Kok Sui, modern founder of Pranik Healing and Arhatic Yoga, formed special charitable foundations to enable us to help countless people in need all over the world with our tithes & resources.

Many humanitarian projects are undertaken by dedicated volunteers & students of Grand Master Choa & they continue to be a labor of love for serving humanity. Projects involve providing those in need with not only the basic necessities (food, clothing, etc), but with the hope of a brighter future & better life through education, vocational training, & the sponsoring of medical procedures & expenses. We work to restore faith in times of natural crises through providing immediate help as well as assistance in long term rehabilitation.

In all our activities & decisions, we make every attempt to uphold the vision & philosophies of our Beloved Teacher & to use our hands as an extension of His Heart.
